## What an affiliate does

They share ViaParaguay with their network. When someone who came through their link closes a deal —a purchase, a rental, a residency process or another service—, the affiliate earns a commission.

## How it works

1

### Apply for access

Fill out the application form. We review it and reply by email.

2

### We approve you

Once approved, your affiliate dashboard is activated, with your referral code and your commission scheme.

3

### Build your links

From your dashboard you create trackable links and your own campaigns, with the kit of texts and logo at hand.

4

### Deal completed: you get paid

When the client you referred completes a deal, we pay you your commission.

## Clear commissions, no fine print

Your commission is a share of what ViaParaguay earns on every completed deal you bring, and it depends on the type of deal. Once approved, you see your scheme in your dashboard. Joining costs nothing: no fees, no entry costs.

## Conditions

- Free to join, no fees.
- No prior experience needed.
