Who we are

ViaParaguay.com is the property and project portal for all of Paraguay, in Spanish, English and Portuguese.

How we present a project: Área Salazar

Every project with its unit types, its units one by one (floor, size, price and status), floor plans, construction progress, photos and video. With a connected system, everything updates on its own.

ViaParaguay.

What we offer

- Your own page with your whole catalog: unit types, units, floor plans and construction progress.
- Inquiries go straight to your sales team, or we handle them for you.
- If you have a pricing or available-units system, we connect it so everything updates on its own.

What we propose

A direct agreement, tailored to each developer.

Next steps

A 20-minute conversation to learn about your projects and shape the agreement.
